

AUTOMATIC SENSOR URINAL FLUSHER

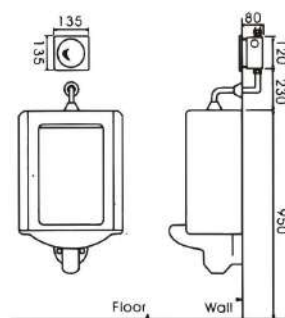

C - 998A (Electrically Operated) /

C - 998B (Battery Operated)

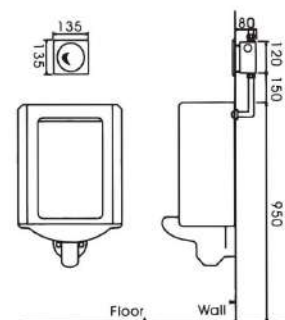

SPECIFICATIONS

- Concealed type, Stainless steel panel with chrome plated zinc alloy outer rim and stainless steel control box
- All-in-One brass solenoid valve
- Fully automatic with IR sensors
- Built-in water flow regulator valve allows water to be adjusted and turned off as desired. Built-in water filter unit protect solenoid valve
- Electronic control components are filled with resins and sealed by ultrasound process to give moisture free life
- Water inlet diameter - 1/2" (inch)
- 230 Volts, A/C single phase for C998A
- Use of four "AA" size ALKALINE 1.5 V batteries (DC6V) for C998B
- Sensing range adjustable : 30 - 80 cm

Urinal Flusher with water inlet on the upper side

Urinal Flusher with water inlet on the rear side

Marketed by

(A Unit of Kalpi Engineers Pvt. Ltd.)

Authorized Dealer:
 M/S APEX Sanitech Systems,
 No.1025 - 21st Street, Mahuru colony/Nanganallur, Chennai - 600 014, Tamilnadu, India
 Tele/Fax: 044-45560601, C-Cell: 9840300696

AUTOMATIC SENSOR URINAL FLUSHER

C - 950B (Battery Operated)

SPECIFICATIONS

- Wall mount type, Fully chrome plated brass body
- Fully automatic with IR sensors
- Built-in water flow regulator valve allows water to be adjusted and turned off as desired. Built-in water filter unit protect solenoid valve
- Electronic control components are filled with resins and sealed with ultrasound process to give moisture free life.
- Water inlet diameter - 1/2" (inch)
- Use of four "AA" size ALKALINE 1.5 V batteries (DC6V)
- Sensing range adjustable: 30 - 80 cm

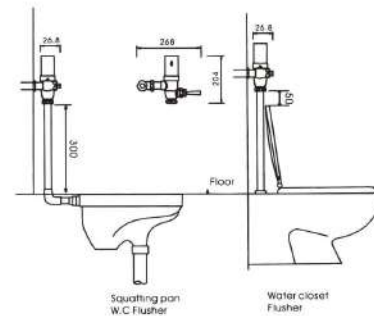

AUTOMATIC SENSOR TOILET FLUSHER

C - 904B (Battery Operated)

SPECIFICATIONS

- Exposed type
- Fully chrome plated brass body and brass solenoid valve
- AUTOMATIC and MANUAL operation with IR sensors
- Built-in water filter unit protect solenoid valve
- One inch large caliber electromagnetic valve gives strong and intense flushing
- Electronic control components are filled with resins to give moisture free life.
- Water inlet diameter - 1" (inch)
- Use of four "AA" size ALKALINE 1.5 V batteries (DC6V)
- Sensing range adjustable: 30 - 80 cm

AUTOMATIC SENSOR TOILET FLUSHER

C - 913B (Battery Operated)

SPECIFICATIONS

- Concealed type, Stainless steel panel with stainless steel outer rim and stainless steel control box. All-in-One brass solenoid valve
- AUTOMATIC and MANUAL Operation
- Built-in water flow regulator valve allows water to be adjusted and turned off as desired. Built-in water filter unit protect solenoid valve
- One inch large caliber electromagnetic valve gives strong and intense flushing
- Electronic control components are filled with resins to give moisture free life
- Water inlet diameter - 1" (inch)
- Use of four "AA" size ALKALINE 1.5 V batteries (DC6V)
- Sensing range adjustable: 30 - 80 cm

AUTOMATIC SENSOR URINAL FLUSHER

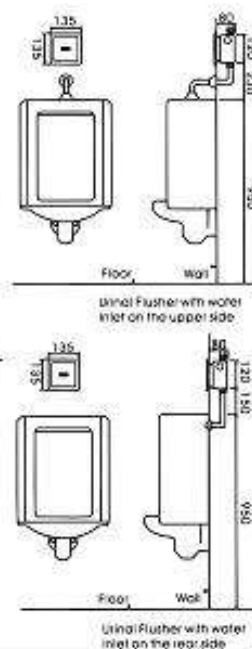

C - 988A (Electrically Operated)

C - 988B (Battery Operated)

SPECIFICATIONS

- Concealed type, Stainless steel panel with stainless steel / ABS chrome plated outer rim and stainless steel control box
- All-in-One brass solenoid valve
- Fully automatic with IR sensors
- Built-in water flow regulator valve allows water to be adjusted and turned off as desired. Built-in water filter unit protect solenoid valve
- Electronic control components are filled with resins and sealed by ultrasound process to give moisture free life
